

GAME ON!

A DAY OF IMAGINATION, CREATIVITY & INNOVATION

On November 16th, up to 200 early childhood education educators will participate in field trips to both education and non-education based companies that are cutting edge in creative thinking, focused on innovation and employing technology in non-traditional manners. Field trips will be organized around the city with lunch provided midday. A final 'share out' will occur with the two groups coming together (hack teams and field trippers) at the end of the day on Saturday. We have space for only 200 individuals for the field trip and up to 21 individuals for the hack teams. **PQAS and Act 48 credits will be provided.**

To register visit: <https://paeycunconference.eventbrite.com>

For questions, email unconference@paeyc.org
