

Georgia Tech Doctoral Fellowships in Resilient Urban Systems

Georgia Tech's School of City and Regional Planning is offering two doctoral fellowships beginning fall term of 2015 to work with professors Subhrajit Guhathakurta and Nancey Green Leigh on a NSF-RIPS funded project titled "Participatory Modeling of Complex Urban Infrastructure Systems."

Applicants must apply and be accepted to the PhD program in City and Regional Planning at Georgia Tech. A masters degree in city and regional planning or related field is required to be eligible for this fellowship. Successful applicants will have a strong foundation in spatial analysis, application of GIS techniques, and knowledge of sustainable urban, regional and/or local economic development. Along with the standard application process for the Ph.D. program, applicants should also send a letter of interest that includes a description of prior training and work experience, and a CV, in pdf form as an email attachment to: RIPS-fellowship@tsquare.gatech.edu.

The School of City and Regional Planning is a global leader in fostering sustainable, resilient and just communities (www.planning.gatech.edu). Faculty include the current editors of the *Journal of Planning Education and Research*; the former chief planning officials of the City of Atlanta and the Georgia Regional Transportation Agency; three former presidents of the Association of Collegiate Schools of Planning; and six Fellows of the American Institute of Certified Planners. School research is augmented by the Center for Geographic Information Systems, the Center for Quality Growth and Regional Development, and the University Transportation Centers. Georgia Tech is one of the world's premier research universities, consistently ranking among *U.S. News & World Report's* top 10 public universities and the *Times Higher Education's* world top 10 technology universities.

Atlanta is an unparalleled planning laboratory illustrating the many opportunities and challenges of planning for sustainable urban development. One of America's fastest growing metro areas, Atlanta is an increasingly diverse region with a growing international presence that has a rich history of pioneering social justice and community engagement.

The Georgia Institute of Technology in Atlanta, Georgia, is an Equal Opportunity/Affirmative Action Employer, strongly committed to diversity within its community. We welcome all qualified applicants, including minority group members, women, persons with disabilities, and others who may contribute to the further diversification of ideas.
