Latisse®
(bimatoprost ophthalmic solution) 0.03%

LATISSE® is a prescription treatment used to grow eyelashes longer, fuller, darker.

Juvederm

VOLUMA™ XC

JUVÉDERM VOLUMA XC® is approved for instant lifting and added volume to the cheek area to correct volume loss in adults over the age of 21.

SkinMedica®
An Allergan Company

SkinMedica® is a nonprescription aesthetic product line inspired by the science of the skin.

BOTOX®
—Cosmetic

BOTOX® Cosmetic is the first and only prescription medicine injected into muscles to temporarily improve the appearance of moderate to severe frown lines AND crow's feet lines.

Juvederm® XC

JUVÉDERM XC® injectable gel is for injection into areas of facial tissue where moderate to severe facial wrinkles occur to temporarily add volume to the skin, especially around the nose and mouth.
