TRANSFORM

Transforming Missional: Translating the **Language, Culture** and **Practices** of the Missional Church to Broader Movements for Change

March 27-30th 2014

@ [Missiongathering](http://Missiongathering.org) in San Diego, CA

TransFORM is an international, trans-denominational missional community formation network:

- ⬆ *international* — primarily focusing on the United States context, where the majority of our members/partners live and work, but intentionally involving international partners, as well
- ⬆ *trans-denominational* — working across denominational lines, in partnership with existing denominations, as well as with independent non-denominational groups
- ⬆ *missional* — participating with God in God's holistic mission to restore all of creation
- ⬆ *formational* — contributing to the formation of vibrant communities of practice that in turn contribute to the formation of robust disciples of Jesus Christ

Transforming Missional is a unique working style conference that will attract mavens of progressive Christianity from across the United States. The gathering is limited to 300 people and tickets are selling out fast.

TransFORM participants are pastors, seminary students, church planters, community organizers, academics and progressive Christians from all walks of life.

Sponsors are welcome to join in the conversations alongside the conference participants in this highly engaging and participatory environment.

TransFORM is hosted by Missiongathering Christian Church and partnered with Homebrewed Christianity, Emergent Village and American Baptist Seminary. You can learn more at www.transformnetwork.org/2014
