

Alliance of Inclusive Muslims (AIM) Member Agreement

In the spirit of universal human rights, justice and dignity for all – all values championed by Islam – we, the undersigned, have agreed to work together under the name **Alliance of Inclusive Muslims**, a collective of progressive Muslims across all nationality, race, and sectarian affiliation.

Henceforth, we have agreed to consolidate our efforts to counter radical, intolerant and supremacist attitudes and behaviours in Muslim communities. We also seek to challenge theological justifications for hate and supremacism with the progressive values that we feel to be inherent in Islam.

We promise to uphold:

1. Human Rights for All - the equal worth of all human beings, regardless of religion, sectarianism, race, sex, gender, gender identification, ethnicity, nationality, creed, age, sexual orientation, or ability.
2. Freedom of Expression - advocates for freedom of expression and freedom of dissent. No one should be legally prosecuted, imprisoned or detained for declaring or promoting unpopular opinions whether political, artistic, social or religious, even when said expression may be offensive or afore-mentioned dissent may be considered blasphemous.
3. Freedom of/from Religion - to uphold the Qu'ranic mandate "let there be no compulsion in religion" (Q:2:256), that freedom of conscience is not only essential to all human societies, but integral to the Qu'ranic view of humanity.

This international alliance is committed to working together, for the betterment of our society. Whether as individuals or as organizations, we recognize that we can only effect positive change if we come together as a collective. We agree that:

1. Initiatives must be pitched, and voted on by members.
2. Once an initiative is approved, we must all participate, support each other and pool resources jointly in the establishment and implementation of said initiatives.
3. Press releases and media initiatives will be consulted upon with all members and will be released under the Alliance name, subject to approval.

We aim for our alliance to grow steadily, resulting in an international conference of progressive Muslims, and towards the establishment of an international secretariat in the long-term.

I/We have read and understand the Alliance agreement.
