

Monday, October 13, 2014
7pm to 8pm
Radnor High School Auditorium

**The Radnor High School
Parent Student Teacher Association (RHS PTSA) and
the Alliance for Safe Kids (ASK) invite YOU
To help END DISTRACTED DRIVING!**

Now is the time to join in this urgent conversation to learn what makes for distracted driving (more behaviors than you think!), what kind of impact distracted driving has on our community, and how we can all improve how we drive. Distracted driving impacts all of us: new drivers, experienced drivers, passengers and pedestrians alike.

Joel Feldman, President and Founder of **EndDD.org**, will lead this critical discussion, drawing on the latest national research and statistics and his own personal experience from his daughter Casey's death at the hands of a distracted driver.

EndDD
End Distracted Driving

Casey Anderson Feldman
1988-2009
The Casey Feldman Foundation

Each day in the United States, more than 9 people are killed and more than 1,600 people are injured in crashes that are reported to involve a distracted driver.

-CDC (Centers for Disease Control and Prevention), January 2014

In 2011, at least 23% of auto collisions involved cell phones
-Texting and Driving Safety

At any given daylight moment across America, approximately 660,000 drivers are using cell phones or manipulating electronic devices while driving, a number that has held steady since 2010.
-NOPUS (National Occupant Protection Use Survey, US Dept of Transportation

Five seconds is the average time your eyes are off the road while texting. When traveling at 55mph, that's enough time to cover the length of a football field blindfolded.
-VTI (Virginia Tech Transportation Institute, 2009
