

2014-2015 Series

# Parenting with Vision

Join us for the Parenting with Vision series throughout the 2014–2015 school year. This series features evening programs that focus on important issues and milestones that may be faced in a child’s school life. This year’s series is a combination of presentations, panel discussions and a workshop designed to provide parents with tools to support their children. Each session will provide an opportunity for questions and answers. All programs are free and no registration is required. The following two workshops are targeted at families with younger children. Mark your calendar to attend!
