# Introduction to Energy Retrofit Modeling and Work Scope Development

FRIDAY, AUGUST 8, 2014 8:30-4

What do the updated BA exams cover? The written exam contains new questions verifying that

candidates understand the principles of software modeling for energy upgrades and that they have the skills to develop a scope of work for customers.

The group will experience using software to model a demonstration house

With PowerPoint and classroom demonstrations, we will practice using energy modeling software and prioritizing the work scope for the energy retrofitter.

Aligns with primary BPI goals, the new BPI Testing Knowledge List, Standards, and BA recertification.

Larry Armanda taught at the Weatherization Training Center at PA College of Technology in Williamsport. He has trained contractors in classroom settings and onsite. He is a Level I and Level II Thermographer and a certified BPI Building Analyst Professional, Envelope Professional, Heating Professional and Multi Family Building Analyst.

## LARRY AND DALE ENCOURAGE QUESTIONS

Dale Sherman is principal owner and president of EnergyWright, Inc. which develops educational products for school and college classrooms, science education centers, and energy training centers. Dale started in the sustainable energy sector as a design engineer for Synertech Systems Corp. in 1986. He developed interactive instrumentation for a state of the art pressure house.

## YOU'LL RECEIVE:

CERTIFICATE OF ATTENDANCE • 8 BPI CEUs

## WHEN & WHERE

- FRIDAY, AUGUST 8, 2014 8:30-4
- PURE ENERGY COACH HOME OFFICE  
10 N. Bausman Drive Lancaster, PA 17603

## WHO SHOULD ATTEND:

- Energy Auditors, Building Analysts, Envelope Professionals
- Weatherization Auditors, Inspectors & Crews
- Program Administrators, Code Officials, Home Inspectors
