

# FOREVER SHOOTING SPORTS ENDOWMENT *FUNDRAISER*

*Is your chapter concerned about the future of conservation?*

*Do you worry about who will replace you as a local volunteer?*

The future of conservation needs your help. By participating in this offer you are building a brighter future for the next generation of sports men and women, wildlife enthusiasts and conservation stewards. Nearly all of us started hunting or shooting with a mentor or close friend. If you think back, you can probably remember that person vividly. Today, your chapter and volunteers are taking on that mentoring role and changing the future by getting kids outdoors learning about shooting sports, hunting and conservation. Through your chapter's support of this print offer, you help guarantee future funding for chapter youth programs ***forever!***

## ***About Artist David Barnhouse...***

Growing up in small towns in Ohio, Dave Barnhouse has never forgotten the values learned in his youth. His art, prints and posters of Friday night cruising, tractor pulls and main street businesses remind us of simpler days in our past. Dave Barnhouse captures every detail in his softly lit scenes.

Whatever the subject may be, Barnhouse takes us on a short journey "home."

Dave Barnhouse recreates the best of times in his definition of rural and small-town America. His paintings are snapshots of life the way he remembers it from the 1950s and 60s. "Collectors tell me they often put themselves in my art. It's a way we all can relive some of the happiest moments of our youth," says Dave.
