"Strengthening the Heart of the Individual, Family and Community"

"ROCC The Block"

Radical Opportunities - Creating Community

"The PULSE" Community Center is organizing a "ROCC the Block" Family Fun Day in the New Auburn Park. We are encouraging local area businesses, churches and individuals to jump on board this vision to change our area through building relationships and trust with individuals and families. We want to bring hope and reason to issues of our day such as poverty, drugs, alcohol, sexual diseases, divorce, abuse, bullying, rape, rejection, loneliness, abandonment, depression, despair, suicide and many other issues. It is our hope to start a movement that will be contagious beyond our community.

We believe individuals, small businesses and corporations see the need to develop strong and healthy people. Strong and healthy people make strong and healthy families, which lead to strong and healthy workers that are productive and committed to their jobs in small business and corporations. It's time we start investing back into our communities in order to be prosperous as a society and country. Help be the solution to the epidemic of hopelessness and despair, victimization and brokenness, and isolation and defeat. It is time to create winners. This is the time! This is the place!

The focus is definitely a faith-based event. But we need to partner with all areas of society: businesses, community organizations and individuals are needed to make this seismic shift in a culture that is being destroyed. Over 68% of Americans believe we are on the wrong track. So where did we get off track? Where did we leave people behind and their needs? We as a community of churches must rally our communities to action and prescriptive solutions. Join us in our mission to get back on track! Join us in an effort to empower people!

- When: Sept 27, 2014 from 11AM to 4PM
- Where: New Auburn Park, New Auburn, WI
- Why: To empower people and families with love, respect and belonging.
To develop support and communication to strengthen our community.
To provide resources of hope for creating strong people and families.
- Who's invited: All people within our community including individuals and families.

- Who's involved: "The PULSE" is organizing local churches, ministries, businesses and community organizations to facilitate this event to build a community of trust, healing and empowerment.
- What to expect: Hourly mix of music, motivational speakers, skits, artists, free food, fun, games, activities, giveaways, counseling, ...
- What's needed: Volunteers and financial support to touch and change the lives of children and families, as well as individuals and communities that have been plagued with the "cancers" of a society that continues to self-destruct. Donations of gift cards, food and refreshments that will be given away to touch the lives of so many children and families living in hunger within our communities. Gifts of hardware such as bicycles, ipods, chrome books, toys, games, clothing, skateboards, athletic equipment, etc. The sky is the limit. What is one changed life worth?
- Our Goals: Our first year goal is to gather (through donations) and give away upwards of \$10,000 of prizes and gifts to people that attend the rally. Our hope is to open new doors of communication and trust within our communities. We also hope to strengthen the front line cooperation between churches and other organizations. It is our hope to allow many different individuals and businesses to invest in the individuals, children and families within our communities. This investment will pay off with stronger people, families, communities and workforce.
- What will it take: Commitment, Passion, Servants, Musicians, Speakers, Sound Equipment, Time, Effort, Availability, Networking, Cooperation, Humility, Love, Truth, Finances, Investors, Organization, ... Plus much more!
- Donations: Because "The Pulse" has not yet achieved its Non-Profit status yet, the FREEDOM Community Church has volunteered to receive any donations. Because of this, donations may be considered tax deductible.

Statistics show us that more education, money, governmental help, welfare, etc. all fall far short from making people find hope, purpose and value in life. Help change the life of a child, single mother, divorced mom, widower, etc. Don't wait until your family, neighbors or someone you know becomes another statistical failure. Get involved at the grass roots level! Donate your time, abilities and finances to help others!

Let us pull together as individuals to change the atmosphere of our community and its families. We hope you are able to participate and invest in the hearts and future of our community. Are you ready to "ROCC the Block" in New Auburn?
