

Lawrence A. Kushnick Tuition Assistance and Community Engagement Fund

Leadership Huntington remains deeply humbled to be the named recipient of the Lawrence A. Kushnick Memorial Fund. It is an honor that we take very seriously. We will forever appreciate all that Larry brought to us, and to so many others. In an effort to help carry on Larry's extraordinary spirit, we have established the Lawrence A. Kushnick Tuition Assistance and Community Engagement Fund.

"My mother had introduced me into the non-profit world with a single phrase 'you have to help people because you can.' I always look at that as my motto and one I try to share with other professionals." That, and so much more. Thank you, Larry...

Talking about forming and serving not-for-profit organizations, and doing good things in general with the Class of 2013

Tuition Assistance

Larry continually reminded us that it was important to provide opportunities for people to build connections and to better themselves. He also expressed a belief that we all benefit from opportunities for people from different walks of life to learn from each other.

In honor of this, fundraising for our long-standing tuition assistance fund will now be done in Larry's name. This fund give people who have the initiative, but not the finances, the opportunity to join our Flagship Community Leadership Program. It enables classes that are socio-economically diverse, something we know Larry valued deeply.

Community Engagement

In memory of a man who was consistently working to open doors to marketing and networking opportunities, we will also recognize in Larry's name donations of tickets, memberships, and sponsorships, as well as advertising opportunities that we are sometimes granted. As we recognize that we are far from the only organization Larry loved, we also seek where possible to volunteer for and participate in events that he championed, such as Huntington Awareness Day.

An Extraordinary Spirit

In doing this, we seek to actively remember the individual whose legacy this fund, in small part, represents. Leadership Huntington will endeavor to continually tell the story of Larry Kushnick in deep gratitude, and as a model that others might emulate.

May Larry's memory inspire and outlive generations to come.
