

Job Seeker Success Story

A New Bounce in Her Step

Recent Bounce Program graduate Nicole Rogers has a new “bounce” in her step. Within just days of completing this two-week, innovative work readiness program, she landed a job in her desired field!

In Nicole’s words, “I can finally announce that I found a job!! I am working as a childcare assistant and the best part is that my little man gets to join me on this amazing opportunity. It was a jump for me at first- I had been in retail all my life, but after the first week of Bounce I decided, hey, why not give it a shot!? This week I got confirmation that I got the job, so I’m a happy mama right here. Thank you for all the support from my Bounce family and guidance of BounceUSA trainers Cheryl Kelly and Roy Lucas of Workforce Central.”
