

# LOW-COST PET VACCINATION & MICROCHIP CLINICS

**FIRST WEDNESDAY OF EVERY MONTH**

**Cats: 6:30 pm-7:00 pm ♦ Dogs: 7:00 pm-8:30 pm**

**BELL TOWER REGIONAL COMMUNITY CENTER**

**22232 El Paseo, Rancho Santa Margarita, 92688**

For clinic and other pet health care information, visit [www.scvvc.com](http://www.scvvc.com). For pet licensing, adoption, and ordinance information, call OCAC at (714) 935-6848 or visit [www.ocpetinfo.com](http://www.ocpetinfo.com).

Pet owners must be in line at or before the designated times shown above in order to participate • Pet owners must be at least 18 years of age to participate • All pets must be on leashes or in carriers • Only healthy & non-pregnant animals will be vaccinated • BRING a license renewal notice or prior Rabies Certificate in order for your pet to receive a 3-year Rabies vaccine; otherwise the vaccine will be good for 1 year • Licensing is available at clinics - Proof of ID is required • Checks accepted for Licensing • **CASH ONLY** for vaccines and all other veterinary services!

**NOTIFY THE VETERINARIAN PRIOR TO VACCINATING IF YOUR PET HAS EVER HAD A REACTION TO A VACCINE, OR IF YOUR PET HAS RECENTLY SHOWN ANY SIGN OF ILLNESS OR COULD BE PREGNANT!**

## **MICROCHIPS FOR DOGS & CATS \$28**

(Includes AVID PetTrac Registration & 24/7 Pet Lost & Found Hot-Line)

## **DOG VACCINES**

### **RABIES \$7 (Age: 4 months & older)**

All dogs 4 mos old & older must be vaccinated for Rabies and licensed. Vaccines are good for **3 years** if dog is over 1 yr old and has proof of prior licensing or a valid Certificate of Rabies Vaccination from a licensed veterinarian in the U.S. Otherwise, vaccine is good for **1 year**, regardless of dog's age.

### **DHPP \$17 (Age: 6 weeks & older)**

"4-in-1", "Distemper", "Hepatitis", "Parainfluenza" & "Parvo Virus". (Very contagious & potentially fatal diseases). **Age 6 to 16 weeks:** Initial series of **3** vaccines administered 4 weeks apart. **Older than 16 weeks:** Initial series of **2** vaccines administered 4 weeks apart. Thereafter, the first booster is recommended in one year, then boosters are recommended every 12 to 36 months.

### **BORDETELLA \$14 (Age: 8 weeks & older)**

"*Bronchiseptica Bacterin*". (Upper respiratory bacterial infection). **Age 8 to 16 weeks:** Initial series of **3** vaccines administered 2 to 4 weeks apart. **Older than 16 weeks:** Initial series of **2** vaccines administered 2 to 4 weeks apart. Thereafter, 6 month or annual boosters are recommended, depending on exposure.

### **LYME \$22 (Age: 9 weeks and older)**

"*Borrelia Burgdorferi*". A tick-borne disease. Only recommended for dogs in areas where tick infestation is a problem. **All ages:** Initial series of **2** vaccines administered 2 to 4 weeks apart. Thereafter, annual boosters are recommended.

## **CAT VACCINES**

### **RABIES \$7 (or "PUREVAX" \$20) (Age: 4 mos & older)**

Even indoor cats are at risk of contracting this fatal disease. Vaccine is good for **3 years** if cat is over 1yr old and has proof of prior licensing or a valid Certificate of Rabies Vaccine by a licensed U.S. veterinarian. Otherwise, vaccine is good for **1 year**, regardless of cat's age. "**Purevax**" vaccine can help reduce the risk of cats developing sarcomas (cancer) sometimes associated with Rabies vaccinations. Purevax is always a one-year vaccine.

### **FVRCP \$17 (Age: 8 weeks & older)**

"3-in-1". "Feline Viral Rhinotracheitis", "Calici", and "Panleukopenia" are serious upper respiratory infections. **Age 8 to 16 weeks:** Initial series of **3** vaccines administered 4 weeks apart. **Older than 16 weeks:** Initial series of **2** vaccines administered 4 weeks apart. Thereafter, annual boosters are recommended.

### **FELV \$19 (Age: 9 weeks & older)**

"*Feline Leukemia*" is a highly contagious and potentially fatal disease. **9 weeks and older:** Initial series of **2** vaccines administered 4 weeks apart. Thereafter, annual boosters are recommended.
