

STAFF SPOTLIGHT

We Improve Communication for Life

Name: Ginny

Position: Speech Language Pathologist

Years of Experience: 4 years

Areas of Expertise or interest:

It's hard to pin down one area; it seems that my interests change frequently with my current caseload. At the moment, my passions are literacy, articulation and social language skills. In graduate school I was involved with a grant that focused on working with children who are hearing impaired.

What is your favorite thing about your job?

The relationships that I have with clients and their families. It is often very bittersweet when I have to discharge a client. I am happy that they have reached their goals, but sad to know that I will not be seeing them each week.

What is one thing you wish people knew about your profession?

How wide our scope of practice is! SLP's don't just work with children who have difficulty saying sounds. We have a very wide range of deficits that we treat including fluency, language, autism, reading skills, voice and executive functioning skills.

One fun fact about yourself:

I have three pet chickens named Madonna, Cher and Janet Jackson.
