April 1: Survey goes out

May 8: Survey due back

July 1: Survey available
for purchase

15th Annual Wage Survey

Due to popular demand, the 2014 Chippewa Valley Wage Survey will now be **distributed in April and published in July**. This will allow more employers to use the information for budgeting and compensation planning purposes, as October 1 was too late for many companies.

An e-mail about participating in the survey went out on April 1st. **Businesses that didn't receive the forms can obtain them through the Chamber website at www.eauclairechamber.org under "Programs & Services" and choose "Chippewa Valley Wage Survey" to download the forms in either paper or Excel format.** There is a minimal cost to receive the report when it is available in July; Chamber or CVSHRM membership qualifies businesses for discounted pricing.

We need more employers to contribute their data in order to keep the survey viable and relevant; data is kept confidential.

The survey covers about **150 common jobs** in the area, with breakouts in **manufacturing, healthcare and financial institutions**.

For questions or comments, please contact **Emily Lindholm** at the Eau Claire Area Chamber of Commerce at Lindholm@eauclairechamber.org or **(715) 858-0614**.
