#### Strategic National Stockpile (SNS) October 6, 2014

#### Sammy Sikes DSHS Region 8, SNS Coordinator

Scott Simmons SAMHD, SNS Coordinator

#### **Overview**

- Regional Overview
- Explain the Strategic National Stockpile
  - Mission, Components, Uses
- State Responsibilities
- Discuss the role of Points of Dispensing (PODs) and Alternate Dispensing Models
- The Modified -Medical Model
- The Need for Volunteers
- Point of Dispensing Operations
- Question and Answers

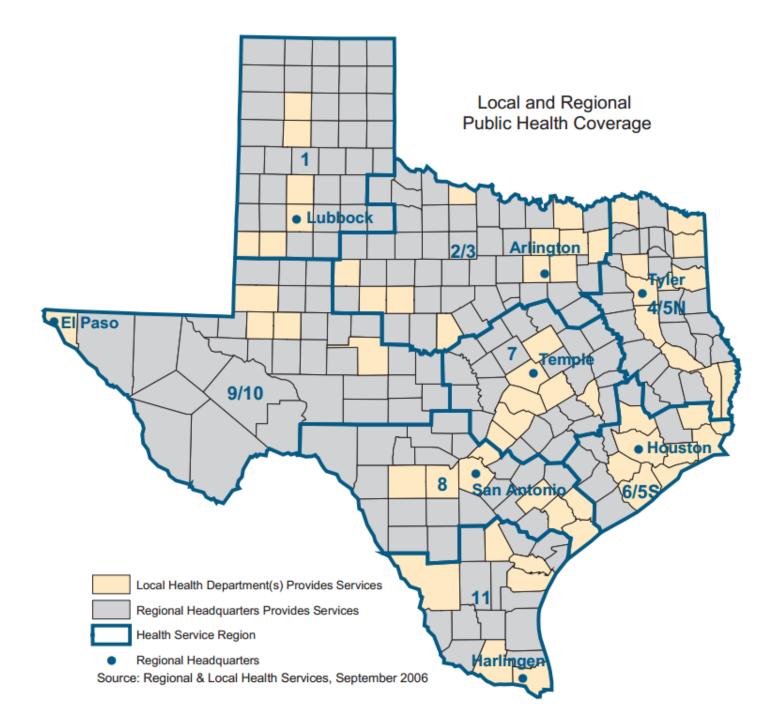

#### HSR 8 Overview

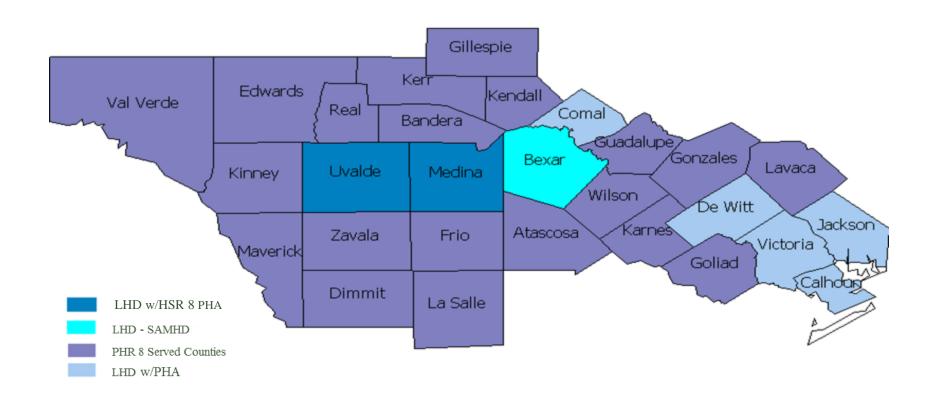

- Texas Department of State Health Services
  - 254 Counties & 8 Regions
- Region 8 Serves 28 counties
  - West from Rio Grand River/Mexico to Gulf Coast on the East
- Region population: 3 Million
  - <sup>1</sup>/<sub>2</sub> residing in Bexar County
- Headquarters located in San Antonio sub-office in Uvalde and 13 field offices

#### Local Public Health Departments Region 8

#### Mission of the SNS

## Get "Pills Into People" as fast as possible to prevent risk from exposure after an intentional release of a biological or chemical agent, or a natural bio-event.

# What is the Strategic National Stockpile (SNS)?

A <u>NATIONAL</u> reserve owned by the U.S. Centers for Disease Control and Prevention (CDC)

Consists of massive repositories (or <u>STOCKPILE</u>s) of medication and medical supplies

**Repositories are <u>STRATEGIC</u>ally placed in confidential** 

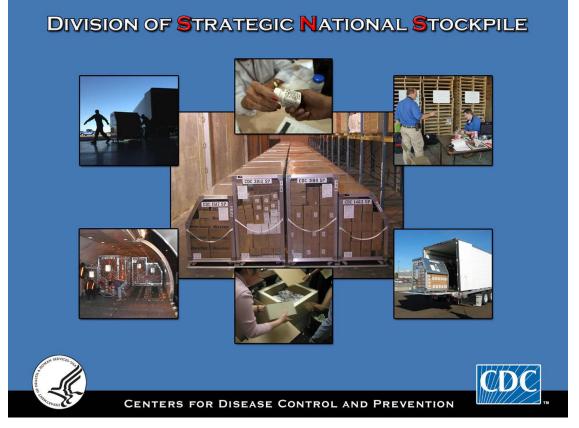

**locations throughout the United States** 

#### **SNS Response**

#### **Getting Medical Countermeasures to the People**

#### **Strategic National Stockpile**

- SNS Requested When Incident is Severe Enough and Local Supplies Will Run Out
- Medicine in SNS is FREE to Everyone
- SNS is Stockpiled to Protect People in Several Large Cities at the Same Time
- Flexible Response
- Provide Rapid Delivery of a Broad Spectrum of Assets for an ill Defined Threat in the Early Hours of an Event

#### **Stockpile Components**

- 12 Hour Push Package
- Managed Inventory
- Buying Power

#### **Strategic National Stockpile**

- Push Packages Strategically Located in Secure Warehouses Ready for Immediate Deployment
- Managed Inventory is housed in strategic warehouses by CDC. Supply is rotated and ready for deployment
- Managed Inventory Arrives 24-36 Hours; Makes Up 96-98% of SNS Assets; <u>Threat is Well Defined</u>

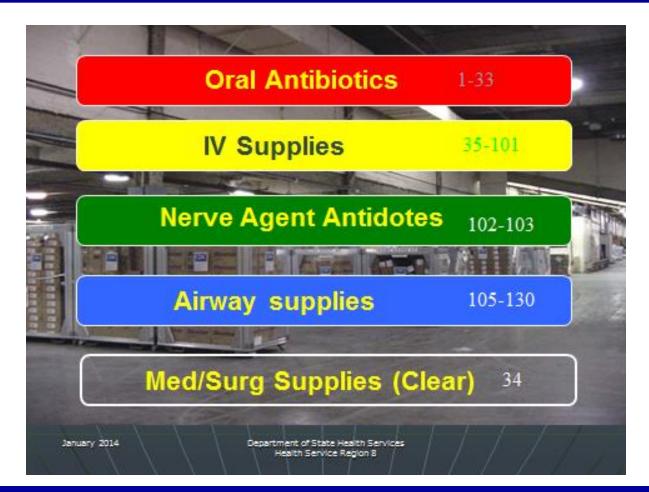

#### 12 Hr Push Package

- Treats 300,000 People
- 130 Cargo Containers
- 50 Tons
- Requires 15,000 Sq Ft of Floor Space
- Pre-configured For Rapid Distribution

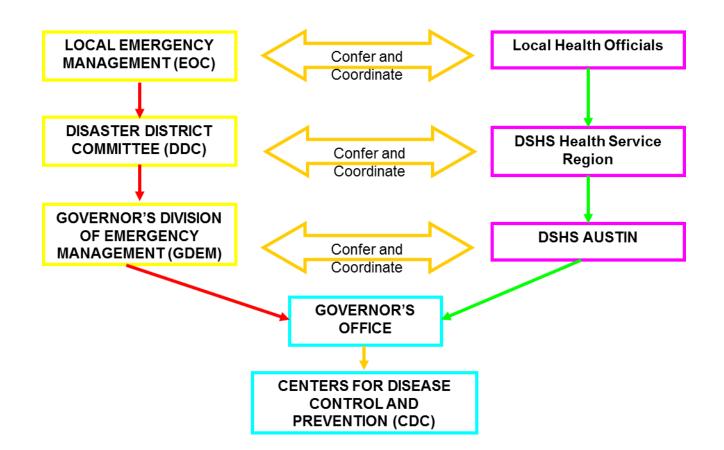

#### **12 Hour Push-pack Contents**

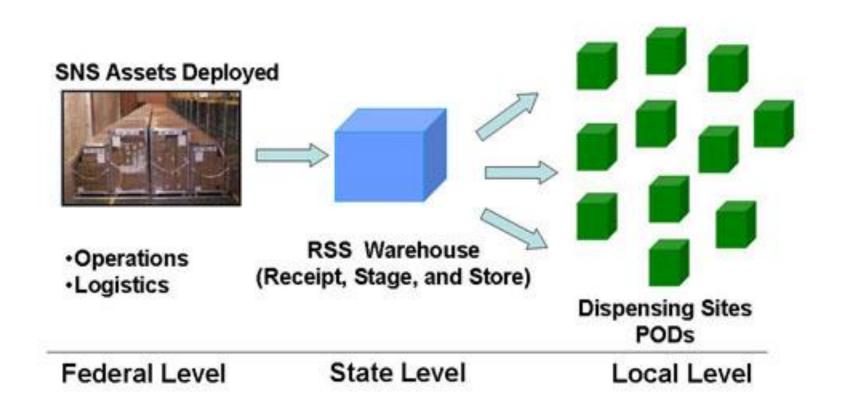

#### **Request Process**

#### **Distribution Procedures**

## To protect entire local population (1.7M) within 48 hours\*

\* Center for Disease Control requirement

### **Preparedness Planning Partners**

- MOU's:
  - Independent School Districts
  - Municipalities
  - Counties
  - Medical Society Societies
  - American Red Cross
  - Medical Volunteers Coordinating Committee
    - Medical Staffing Agencies
    - Federally Qualified Healthcare Facilities
    - Colleges and Universities/Medical Students
    - Regional Hospitals/Trauma Centers
    - Baptist Child and Family Services
    - Large Corporations

**Concept of Operations & Continuity of Operations** 

Initiate prophylaxis immediately for staff and family members of:

- First Responders/Essential Personnel
- Critical Services (City, County, Federal)
- Utilities (CPS, SAWS)
- Volunteers

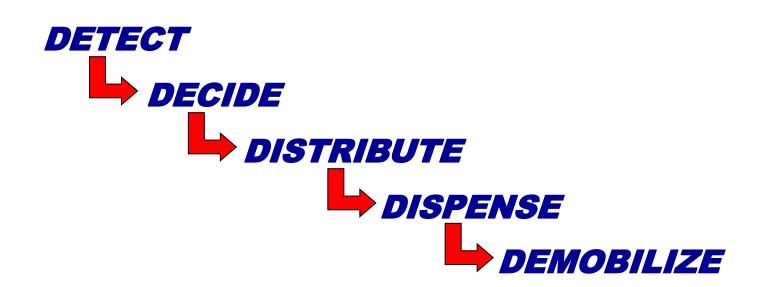

#### **Concept of Operations**

- Initiate Dispensing Site Operations to Public
- Distribute Meds to Local Treatment and Nursing Facilities
- Distribute Meds to Large Employers
- RSS Direct Delivers Meds to Military Bases
- Deliver Meds to Local Confinement Facilities

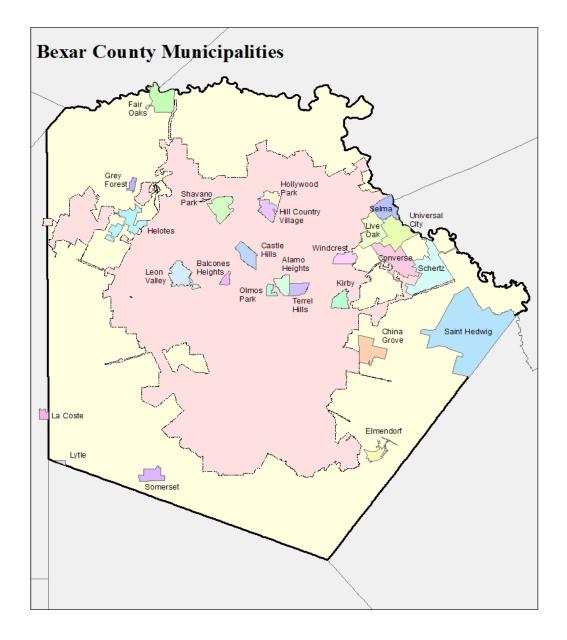

### Point of Dispensing (POD) Operations

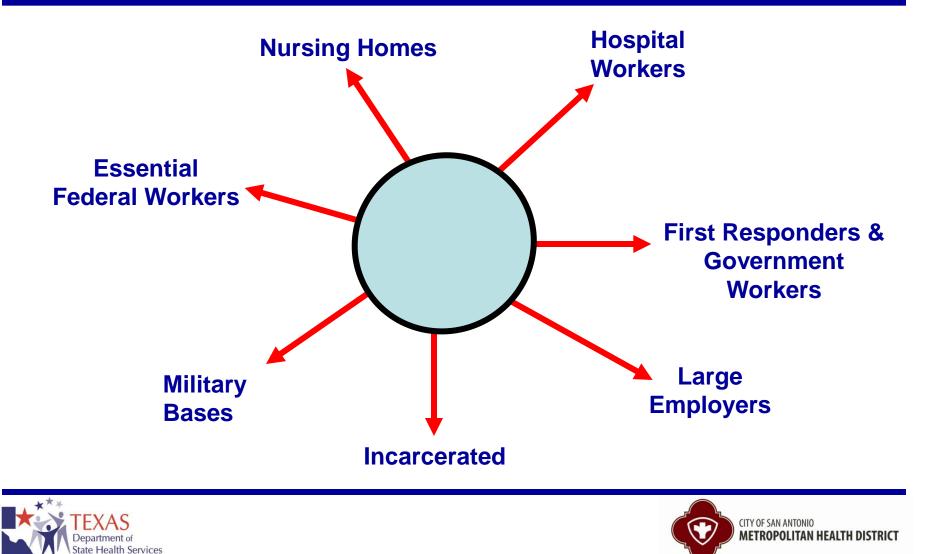

#### **Bexar County Municipalities**

#### The PUSH CONCEPT (Closed PODs)

## **Planning Factors (Medication)**

Military Bases	Assigned	<b>Civilian Employees</b>	Family Members	Total	
Lackland AFB	26,397	8,533			
Fort Sam Houston	13,465	7,230	90,592		1,700,000 Population
Randolph AFB	4,500	10,500	45,000	60,000	(817,686) Push
TOTAL	44,362	26,263	232,697	303,322	
					882,314 Pull
Closed PODs					
USAA	15,400		61,600	77,000	-
Texas Med Clinics	461		1,844	2,305	9 75 U.S.U
H.E.B.	18,000		72,000	90,000	2.75 HoH
Southwest Research	400		1,600	2,000	
CPS Energy	4,000		16,000	20,000	320,841 Est. Push
SAWS	1,890		5,198	7,088	• •
Security Services	1,400		3,892	5,292	• • • • •
WellMed Med Mgt	1,271		3,813	5,084	26 PODs
VIA Transportation	2,006		5,516	7,522	
Texas A&M San Antonio	4,800		8,400	13,200	12,340 Per Pod
TOTAL	49,628		179,863	229,491	
					•
COSA, Bexar Cty, Hospitals	56,804		224,389	281,193	48, 36, 24, 12 Hrs
					, , ,
Unincorporated Municipalities	1,338		2,342	3,680	257, 343, 514, 1,028
					The second second Day I laws
TOTAL	152,132	26,263	639,291	817,686	Throughput Per Hour

#### The "PULL CONCEPT" Public Dispensing

#### Community Dispensing Points

- Also known as a Point of Dispensing (POD)
- Designed to rapidly administer vaccinations or medication to the public during an outbreak
- Located throughout the community to service the public
- Reliant on County Employees, volunteers and local support

#### San Antonio and Bexar County Dispensing Sites

- 26 Primary Dispensing Sites
- 14 Additional/Back-up Dispensing Sites May Be Activated
- Site Selection Criteria:
  - Population Centers
  - Traffic Flow
  - >Ultimate Dispensing Capacity
  - >Accessibility
  - Facility Resources
  - Standardized Design
  - Community Familiarity

#### **Significant Considerations**

- Schools will not be in session during emergency period
- Only well individuals will report to site for prophylaxis
- Symptomatic individuals are to go directly to their health care provider and not report to site.
- Head of Household can pick up for oneself and seven others

#### **POD Planning Considerations**

- Use of Modified -Medical Model
- Simplified Forms/Collect Only Essential Information
- Use of Media to Convey Information
- Head of Household Can Pick Up Medication for Family Members
- Streamlined Flow

#### Walk Through POD Through-put Capability

- Determined by a combination of Venue Size, Operations and Logistics
- Estimate Based Upon:
  - 3 Minutes Per Person Per Dispensing Station
  - 20 Persons Per Hour Per Dispensing Station
- CDC Goal is 500-800 Doses Dispensed Per Hour

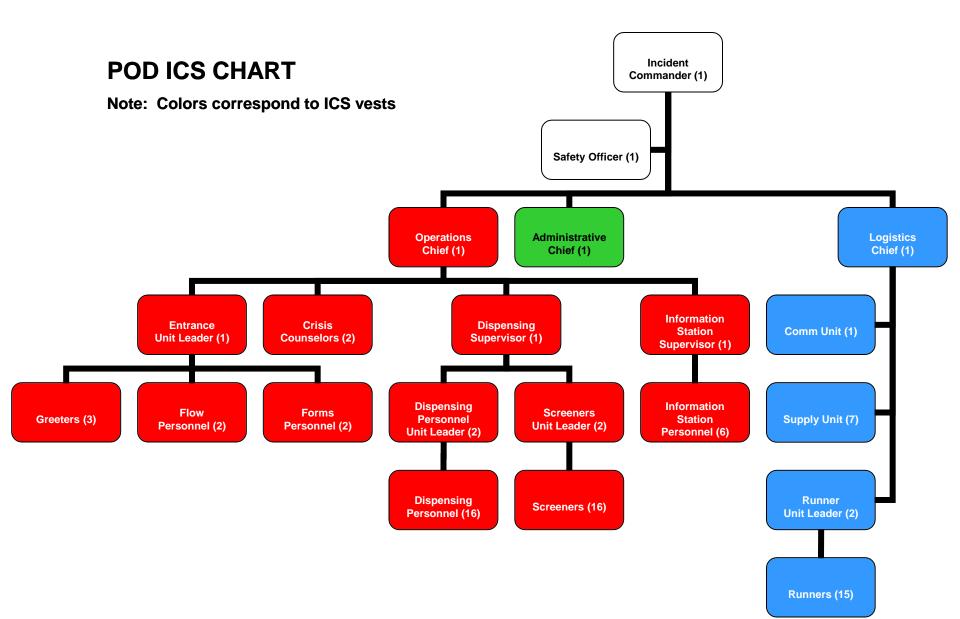

#### **Alternate Dispensing**

- U.S. Postal Service Option Executive Order 13527
  December 2009
- Drive Thru Dispensing Sites
- Retail Pharmacies to augment PODs

Incident Commander/Site Manager	1
<b>Operations Section Chief</b>	1
Logistics Section Chief	1
Administration Section Chief	1
Safety Officer/PIO	1
Entry Personnel Unit Leader	1
Greeters	3
Forms Personnel	2
Flow Personnel	2
Crisis Counselors	2
Information Station Supervisor	1
Information Personnel	6
Dispensing Supervisors	1
Dispensing Unit Leader	2
Dispensing Personnel	16
Screener Unit Leader	2
Screeners	16
Runner Unit Leader	2
Runners	15
Supply Unit Personnel	7
Communication Unit Personnel	1

#### POD PERSONNEL REQUIRED PER 12 HOUR SHIFT

#### **Requirement Total**

79

#### How Many Personnel Are Needed?

At two 12-hour shifts Bexar County will need approximately 4,628 personnel to operate 26 multiple Points of Dispensing (POD) sites for one day.

#### **Volunteers**

- Civil Servants (non-essential)
- Volunteer Organizations
- Medical Reserve Corps
- Crisis Emergency Response Teams
- Spontaneous Volunteers

#### Medical Volunteer Roles At PODs

- Clinic Manager
- Pharmacist
- Medical Screener
- Prophylaxis Dispenser
- Mental Health Worker/ Crisis Counselor

#### *Non-Medical Volunteer Roles*

- Administrative Workers
- Documents Coordinator
- Forms Technician
- Facilities Manager
- Logistics Workers
- Patient Educator
- Runner
- Security/Crowd Control
- Translator
- Greeter/Forms Distributor
- Comm./Radio Operator
