BREAKING NEWS:
New York Review of Books:
Flu Warning: Beware the Drug Companies! -Helen Epstein
May 12, 2011

H1N1 Flu Vaccine is NOT SAFE!

Get the Vaccine Risks Report Before it's too LATE!

9 is the number of diseases induced in lab animals by oil adjuvants:

30 is the number of scientific papers published in peer-reviewed journals that show the oil squalene, which is being used in H1N1 swine flu adjuvants, causes crippling diseases in animals inject with it:

46,000 is the approximate number of people enrolled in clinical trials around the world to test influenza vaccines containing squalene!

900,000 is the number of Britons injected with a toxic oil adjuvant between 1963 and 1965 before the manufacturer voluntarily withdrew it from the
