Our trading software "Riello-EA" was developed to give you the opportunity to make profit without any special knowledge in the foreign exchange market.

This trading software works fully automatic and finds a relevant trend for the currency pair that you want to trade. Riello-EA is able to automatically recognize, calculate and process a lot of information up to 24 hours per day.

Furthermore is this software able to buy and sell in both directions. Therefore the direction does not have to be defined as it is the case in equities.
