Add sparkle, drama or a bit of flare to your landscape. Whether you have a large lot, small city space or just a balcony, we'll look for eco-friendly renovation ideas. Everything from screening, garden art, containers and new plantings will be explored. These green and easy ideas will keep you gardening, regardless of your time, energy or budget available for gardening. We'll also tell you about new and old plant favorites that can provide year round interest, attract wildlife or create the needed focal point in your landscape.

Melinda has written over 20 gardening books. Most recently, she has authored, "Midwest Gardener's Handbook," "Minnesota & Wisconsin Month-by-Month Gardening," and "The Minnesota and Wisconsin Getting Started Garden Guide."

Books will not be sold at this event. However, Melinda will be available to sign your pre-purchased copies immediately following the program.
