A third victim died due to the explosion of a suspected gas tank butane that left 17 people with burns, six of them with affectations up to 90 percent of your skin on 11 May at the development center Gatas Waters in the South Atlantic Autonomous Region (RAAS).

On Saturday night, died Rosendo Santos Medina and Marlene Arroliga Taleno in Hospital Juigalpa Assumption.

The first victim was Flora Manzanares, who died on May 14 in the evening hours, in the same hospital, where she underwent observation of burns.

The bodies of the victims were taken to the place where the accident occurred, the development center Aguas Gatas, 60 miles south of New Guinea.

June 27, 2014 UPDATE FROM W/NP MANAGUA OFFICE

May 11th was an accident about 60 kms from Nueva Guinea town, the community name is San Isidro called as en el Polo de Desarrollo Aguas Gatas places.

About 20 people were at dental clinic waiting to be attend the doctor according the police report two tanks 50 pound and 100 pounds with propane gas had them at the kitchen and one of them was leaking and while the doctor was doing a drill work in one of the patient this provoked a big explosion then after fire the building. 17 people got severed burn and 6 of them were in critical condition they were divide and send them to different hospitals in Juigalapa, Lenin Fonseca, La Mascota hospitals and one boy and one girl 13 years old were send them to Aproquen.

Doctor Leandro let me know after the accident the plastic surgeon doctor from Juigalpa is following the patients healing process and he is making arrangement and try to find out how our program can assistance providing the garments to the patients.

I think your idea about the mobile burn service will fit in this case I let Dr. Leandro this will be good opportunity to do this service instead 17 patients travel to our office at the same day if you will approve part of Burn Staff with the sewing machine and materials will travel to Juigalpa so this way does need travel along distance that we know is comfortable during their recovering phase.

Police officials say the incident was caused by a leak in a gas tank in a dentist's house. PRESS / FILE

Dr. Leandro is willing to travel with us during the Garment Mission also he told me he travel with me to Juigalpa to talk with the surgeon doctor and the hospital director how we can carry out this idea to day or when you think is opportune.

Patients really need the garment as soon as possible and this will be a worth time to motive other volunteers to support your idea I think Kathie from the national share the same idea as you even when we have not the right transportation we can do it if you are in agreement let know your thought any suggestions are welcome. - Moises
