

# RIFLINE COMPLETE – The integrated relay system

FEBRUARY 2014

## Description

RIFLINE complete — a name that comes from Relay Interface — is a new, general purpose, “ice cube” relay series. This quality line of industrial relays consists of the universal ice-cube relays, with contact sets up to four-pole, double-throw (4PDT), as well as terminal-block-style relay modules. RIFLINE complete modular relay system is available as completely assembled modules and individual components.

These cost-effective relays allow customers to use Clipline complete accessories for bridging, marking and testing. Customers also have the ability to easily turn a relay module into a timing relay by using our multifunctional, 24 V plug-in timing module accessory.

## Features and benefits

FEATURES	BENEFITS
Aggressive price point	Allows penetration into cost-sensitive accounts
PT push-in termination technology	No tools required, reduces wiring time and costs
Plug-in capability	Allows for easy maintenance
Uses existing CLIPLINE complete accessories	Simplifies installation and saves on component and storage costs
RIF-4 can be used as a replacement for small power contactors	It is less expensive and easier to maintain
Plug-in timer module	RIF-1 to RIF-4 can easily be turned into a timer relay

## Certificates/Approvals

UL recognized – UL file number – E 113228 (Bases)  
 UL file number – E 228652 (Relays)  
 Safe Isolation under DIN EN 50178
