

Updates in Developmental-Behavioral Pediatrics Conference

June 7th, 2014

Stauffer Conference Room @ CHLA

Grant Information:

http://mchb.hrsa.gov/training/project_info.asp?id=330

Rationale:

This conference arose out of a focus on our **Goal 5: Health Provider Education:**

To provide medical students, pediatric residents and providers from pediatric primary care and other relevant disciplines with the knowledge and skills to promote systems-change, improve access to care and enhance the quality of life for children with developmental-behavioral problems, especially in Southern California.

Purpose:

We will begin an annual conference on DBP updates for primary care providers in Southern CA. The purpose of which is to educate and empower practicing primary care providers to advance the care of children with DBP problems.

Methodology:

We will utilize didactic lecture and case-based small group formats to accomplish this goal.

Schedule:

8:30-9:00am- Breakfast and Registration
