RHUB Appliance: The Best Alternative To Hosted And Software Solutions

Solutions for audio, video and web conferencing, remote support, remote access and webinar are primarily delivered in one of two ways: via hosted (SaaS), or installed software. There are advantages and disadvantages of each. The RHUB appliance combines the advantages found in both models.

RHUB Appliance

- No monthly fees
- Easy to deploy, one-time 10 – 30 minutes installation
- Harden on-premise security No IT maintenance needed. Firmware updated automatically.
- Full customization. APIs for integration with applications or websites

Hosted Service

Installed Software

Benefits:	Drawbacks:
• Easy to deploy	• Monthly fees
• No IT maintenance	• Weak security
	• No integration

Benefits:	Drawbacks:
• On-premise security	• Difficult to set up
• No monthly fees	• High up-front cost
	• Ongoing maintenance

3 – 5 month payback. Comparison of accumulated costs for 2 meeting rooms.

Month	TurboMeeting -210	WebEx Meeting Center	Citrix GotoMeeting Corp	LogMeIn
3	$1,195	$995	$594	$774
5	$1195	$1,875	$990	$1,290
12	$1195	$4,500	$2,376	$3,096
24	$1,435	$9,000	$4,752	$6,192

6-IN-1, OUTSTANDING VALUE

The TurboMeeting 6-in-1 appliance provides six solutions in one unit:
- Web conferencing – sales presentations, product demos, interactive collaboration
- Remote Support – remote desktop support for PCs and Macs
- Remote Access - access to office or home PCs from anywhere anytime
- Web Seminar – seminars for view-only attendees, guaranteed attendance
- Video Conferencing - Webcam based
- VoIP Audio Conferencing

R★HUB

YOU OWN IT, YOU CONTROL IT!

The TurboMeeting Web conferencing appliance plugs into your network. You control users, access, and functions. You can authorize as many users as you wish, restrict the user to meeting types, or restrict meeting access by IP address as well as Meeting ID and Password. You can host unlimited meetings or support sessions with your employees behind a firewall or customers outside firewall.

You can brand the system and integrate it with your applications and websites. You can place "Host Meeting" and "Join Meeting" buttons on any external/internal home pages, or windows based applications such as audio conference or CRM systems.

UNIVERSAL ATTENDANCE – ANYBODY CAN JOIN THE MEETING

The amazing Universal Attendance technology enables anyone with a modern browser, on any platform, to join a meeting. No download of any kind is required of them. The attendee is "view only" and can see the presenter's screen in a browser with the similar speed as the fully interactive client attendee who needs a download.

Just think - no firewall, antivirus products, lockdown computers, or unsupported platforms can keep your key meeting participants from joining. And, it is fast – just 5 seconds to join. No more waiting 10 and 15 minutes to start your meeting while everyone works to get clients downloaded and connected.
