Fire Drill

October 5 - 11

Every year, more than 2,800 people die in fires and a shocking 92% of those happen at home.

The Fire & Life Safety Educators of Colorado will encourage **ALL** Coloradans to make a home escape plan and to practice the plan during Fire Prevention Week.

Participants will be provided a prize for participating and all entries will be entered into a drawing for a grand prize.

Family resources are available at greatcoloradofiredrill.org and resources for fire departments will be available from FLSEC.
