Orphans ... Pays Medical Expenses for Animals With “No Hope”

by Pamela Crawford,
Orphans' Foster Home Volunteer

In 1999, our Hope Fund was started to help homeless pets with large medical expenses. Bailey was one such orphan.

Bailey had a sad start. Found along a West Virginia road and taken to a kill shelter, she was only 6 weeks old. Luckily, Orphans of the Storm was able to rescue her, and save her life.

At 8 weeks old she was adopted. Unfortunately she began to have medical problems and was returned to the shelter.

Bailey then came to me as a foster. Using the Hope Fund to cover her medical bills, Orphans took her to specialists and had additional fund raisers in order to fix her medical problems.

After surgery and a long recovery, she is now a normal, mischievous, 1-year-old Labrador!

Along the way, I fell in love and adopted her into my family of special needs dogs. We call that a "foster failure." If only all failures in life would turn out so good!

Orphans ... Dreams of a New Shelter

When you visit our small shelter it is almost unbelievable that we are able to help as many animals and people as we do. We dream of someday building a new shelter to allow us to better care for our animals, and keep them safe while they wait for their forever homes.

Who Are We?

Orphans of the Storm is located in Armstrong County, Pa. We were established in 1969 to provide temporary shelter for unwanted and abused animals. We match lovable animals with loving forever homes; educate the public on humane, responsible care of all animals; and promote spaying and neutering to reduce companion animal overpopulation. Orphans of the Storm is a no-kill animal shelter. This means we euthanize an animal only if it is suffering with no hope to be cured, or if the animal is a danger to people or other animals.
