

UPCOMING TRAINING SEMINAR

WORKPLACE VIOLENCE

A special one-day seminar presented by Premier Training Network

Sadly, the need for workplace violence prevention training has never been greater. This course is designed to work with your company's written policy in an effort to give your staff a "tactical edge" in preventing and surviving workplace violence. Using a "common sense" approach to safety, students will learn a wide variety of techniques and strategies they can use to make their workplace a safer place. This class is customized for the specific needs and concerns of both fixed workplace personnel (office) and also for field personnel (mobile).

Training Topics Include: Creating a "Survival" Attitude, How to Heighten Your Personal Awareness, Effective Prevention Techniques, Legal Resistance to Violence, Bomb/IED/Biohazard Threats, Phone & Mail Safety Protocols, Defenses Against Violent People or Animals and Active Shooter/Hostage Situations.

The instructor's unique delivery incorporates hands-on learning and demonstrations on how to alert co-workers to an emergency and what to do if involved in an incident in terms of getting to a safe place. His use of attention-getting "props" engages the audience. He encourages attendees to participate in demonstrations, teaching how to evade a protagonist who is trying to hurt or rob, as well as being alert and suspicious to one's surroundings.
