

Teknion continuously invests in design; we've developed new alliances with independent designers and continued to build our product portfolio. Design thinking remains an integral part of our culture. It is as much a part of our business strategy as is the form and function of our furniture products. Teknion, our industry and business as a whole continue to investigate and integrate design into various activities — product development, communications, organizational development — design will prove to be a powerful tool for realizing a world of rich and sustained abundance.

As a company, Teknion is enthused for its most recent business ventures. The three new business partnerships include Teknion Studio which is a brand with products that work now and forward, solving the problems of the contemporary office with high design and superb quality. The second partnership is B&B Italia's Project Collection which is a coordinated offering of tables, chairs, high-end casegoods and soft seating – comprises ergonomic, functional furnishings that address the requirements of public spaces. The third partnership is Teknion Textiles- a new brand of textiles created by New York-based Suzanne Tick to bring a broad range of sophisticated and refined fabrics to the market. Most recently, Teknion received several awards at the annual NeoCon 2014 design exposition and conference which included Gold- Best of NeoCon- *Teknion Studio Lite Wall* in the Walls: Moveable category and Silver- Best of NeoCon- *Journal* in the Casegoods category.
