

MOLINA HEALTHCARE CORDIALLY INVITES YOU TO

# LOST & FOUND: THE SECRETS OF ARCHIMEDES

**THURSDAY, MAY 29, 2014 | MaryLou and George Boone Gallery**  
**The Huntington Library, Art Collections, and Botanical Gardens**

**6:00–8:00 p.m. | Exhibition viewing and refreshments**

Considered the greatest mathematical genius of antiquity, Archimedes lived in Syracuse, Sicily, in the third century B.C. In 10th-century Constantinople (present-day Istanbul), a scribe copied Archimedes' treatises onto parchment. But in the 13th century, a monk erased the text and recycled the parchment to create a prayer book. In 1999, the Walters Art Museum in Baltimore began a project to read the erased texts. This exhibition highlights 20 leaves from the manuscript to tell the story of its journey and the discovery of new scientific texts from the ancient world. This exclusive viewing is not to be missed. The Huntington is the only venue to host the exhibition besides the Walters Art Museum. Learn more at [www.huntington.org](http://www.huntington.org).

No-host bar | Space is limited | Please enter through the Allen Avenue gate.

Please RSVP, acceptances only, by Thursday, May 22, to Emily Goldblatt at 626-405-2262 or [egoldblatt@huntington.org](mailto:egoldblatt@huntington.org).

This exhibition was organized by the Walters Art Museum, Baltimore.

Molina Healthcare is proud to support "Lost and Found: The Secrets of Archimedes" at The Huntington. Additional support was provided by Scott Jordan, the MacTon Foundation, the Ahmanson Foundation Exhibition and Education Endowment, the Gladys Kriebel Delmas Foundation, and Janet and Alan Stanford.
